

Port Malabar Rifle & Pistol Club – 3-Gun

Rifle with Barrels

Course Designer: Jon Rhoades

Stage Description: Shoot targets as they become available. Do not go forward of the imaginary line created by the barrels. The shooter may assume any shooting position (prone kneeling) after the start signal and may use the barrels as support. Barricades go all the way up and all the way down you may not shoot through them, over them, or under them.

Notes: If the shooter is slightly ahead of the barrels less than a yard no big deal the design is just to make longer than normal shots advancing on targets is procedural per shot fired out of position. If moving up range ensure weapon does not break the 180.
